OUR SERVICES

Adoption, foster care, family preservation, and more. Saint Francis Ministries serves children and families and young adults with a variety of programs aimed at doing the most good.

A MINISTRY FOUNDED IN HEALING, WRAPPED IN HOPE

Over 75 years ago, Fr. Robert Mize founded St. Francis Boys Homes to help boys lost in the criminal justice system to redeem their self-worth and imagine lives of purpose. Today, the services of Saint Francis Ministries may look very different from that first residential boys' home. But the ideas that created the foundation of this organization stand strong: building self-worth, forgiveness and love, recovery and support for building resilience and overcoming trauma, and, above all, supporting and helping families so they can stay together whenever possible.

Through a wide range of social, therapeutic, and residential services, Saint Francis supports the children and families most in need of healing and hope. Dedicated to the dignity and worth of every human person, Saint Francis will continue to serve wherever God calls us.

OUR ROLE IN TEXAS

Saint Francis Ministries in Texas is a 501(c)3 nonprofit organization dedicated to providing healing and hope to children and families as the Community-Based Care provider for Texas DFPS Region 1, which includes 41 counties in the Texas Panhandle and South Plains. To learn more about Community-Based Care, please visit:
